To the Ambassador Extraordinary and Plenipotentiary of the Democratic Socialist Republic of Sri Lanka in the Russian Federation
Meegahalande Durage Lamawansa

Your Excellency!

On June 20, 2021, the South Ural State University launched the admission campaign. We are always happy to give the opportunity to enroll applicants from your country and do everything possible to facilitate their study at our university. We strive to organize the training of highly qualified personnel for the Democratic Socialist Republic of Sri Lanka. In this regard, we ask you to assist in attracting applicants of the Democratic Socialist Republic of Sri Lanka to enroll in the South Ural State University. Schedule of the SUSU admission campaign in 2021:

ACCEPTANCE OF APPLICATIONS	until July 23
ENTRANCE TESTS* (SUSU general education exams)	July 01-July 29
ENROLLMENT	until August 17

**In 2021, entrance tests are conducted online remotely for those who are located outside the Russian Federation. To ensure control over the actions of the applicant, the proctoring procedure is used. Proctoring is a control procedure for an online exam or testing, where the entire process is supervised by an administrator – proctor. He follows the actions of the examinee using a webcam and sees what is happening on the computer monitor of the examinee. To pass the entrance tests, an applicant needs a computer with a webcam, a microphone and an Internet connection with a speed of 1 Mbit/s or higher.*

Together with this letter we attach further materials for applicants:

- informational brochures, photos and video materials about SUSU (Appendix 1)
- list of SUSU educational directions for bachelor's, specialist's and master's degree programs (Appendix 2)
- the procedure for submitting documents for admission to the main educational programs of SUSU (Appendix 3)

We ask you to provide information support in the dissemination of these materials among the applicants of Sri Lanka. We will be deeply grateful for your support in this matter. We express our deep hope for the fruitful development of our cooperation. This will serve as another incentive for the development of international relations between our countries and peoples in the field of education, science and culture.

With regard,
Rector

A. L. Shestakov
